- Dr. Merrill Unger writes "History since the fall of man has been an unbroken attestation to the ominous fact of evil powers in human realm. Whether it is the Pharaoh of Egypt pressing the people of God, or Nebuchadnezzar leading them into captivity, or Nero brutally torturing and Massacring them, however perhaps the most solemn demonstration of the utter barbarity and horrible cruelty wickedness of man energized by demon power has seen to be reserved for the boasted civilization and enlightenment of the 20th century. Hitler, the demon energized, demon directed scourge of Europe has come and gone leaving behind a trail of agonized sufferings and a stage of chaos upon which atheistic communism is determined to perpetuate ever greater evils".

# Questions we are answering...

- What do evil angels do?
- How does satan operate?
- I thought Satan was judged at the cross, what is he doing here?
- How do we enforce the sentence?
- What is praying against?
